**MINUTES  
PAYETTE CITY COUNCIL  
Work Session & Regular Meeting  
June 2, 2014**

**5:30 PM – Work Session**

**ROLL CALL**

**Members Present:** Mayor Jeff Williams, Mark Heleker, Nancy Dale, Ray Wickersham, Lee Nelson, Craig Jensen and Jeff Sands

**Members Absent:** None.

**Staff Present:** Mary Cordova, City Administrator; Steve Castenada, Fire Chief; and Bobbie Black Deputy City Clerk

- A. Discussion of Proposed Gas & Oil Ordinance – Ms. Cordova provided examples from across the United States of setbacks, application requirements and etc. She stated that this evolves over time as new development happens in Payette. Councilor Heleker agrees but is concerned about directional drilling and how much difference does it really make. He is concerned for our aquifer, and how that could potentially harm the health & welfare of our citizens, farther kept away the better. The Council needs to put something in place and build from there. Councilor Dale understands that most of the damage comes from the fracking. Water that has been used and then injected back into the ground causes the problems. It makes a higher concentration of arsenic. All we can control are location and setbacks in our community. Councilor Dale likes the Santa Fee example. Ms. Cordova stated that we have a well head protection ordinance. The Council stated a lot of these issues could be addressed in a source water protection ordinance. Putting setbacks in place will help the City. If we set numbers large and then can treat on individual basis if they want to deviate, then the council can make a decision at that time. The State is 200' from house and we can say 300' feet. Flood plain would encompass a lot of the city. As price of gas goes up and demand, they are promising they are not doing any fracking. That was stated at Payette County Planning & Zoning and now they are asking to do. Councilor Sands likes idea of including the flood plain. The Council need to decide what type of setbacks or verbiage they would like to see in the ordinance. Councilor Dale stated we should give consideration to a source water protection ordinance, then blending in the setbacks and then turning Mary lose with her expertise. Remove reference if going to do an ordinance, and clean up some of the fluff language. If we change later it will become more stringent. The driller could come before the council and see if they can convince us to see if they can do. Discussed how important well spacing becomes. Gas and oil will learn from their mistakes, and we don't want to shut the door on them, but show us something that is safe. Our county is blessed with these resources, we will still see the benefits trickle down, but keep our aquifer and citizens safe. If we don't have water, we don't have a town. Our job is not to sustain their business; our job is to protect our community. We need to err on the side of caution and set numbers bigger. The Council would like to direct staff to compile an ordinance like Santa Fee & Rio Arriba County for a basis. The Council likes the 1000 ft from wells. Discussed the drilling process is usually 2-3 weeks. They are drilling in the County constantly. Until they hit then they put up fences. The County didn't want fencing around the well site, but the city is denser and needs fencing. Maybe allow temporary fencing, maybe need to define the difference while drilling and when they are done. Discussed open pits in the City limits. The Council asked about the closed loop system. Put in what you think is important. Compile a draft ordinance that gives choices and council can make decision by next meeting work session. The Council discussed contractors wanting to purchase water to test oil & gas lines. Councilor Sands stated it only makes sense to get more information from them, and if our employees have to perform extra work then we have to recoup our labor costs. Maybe set a weekly limit for all contractors. Councilor Dale stated when they want to start fracking they would now need 5 million gallons, we need to set restrictions and have some kind of contract. They also need to be aware that the City could shut off at any given time if had a major fire. We would need to have a contract with each one, set limits and

restrictions. The Council would also like to see a source water protection ordinance to go along with oil and gas ordinance.

Work session ended at 6:47pm.

### **7:00 PM – Regular Meeting**

A regular meeting of the Payette City Council was called to order at 7:00 PM by Mayor Jeff Williams in the City Council Chambers of Payette City Hall, 700 Center Avenue.

#### **ROLL CALL**

Members Present: Mayor Jeff Williams, Mark Heleker, Nancy Dale, Ray Wickersham, Lee Nelson, Craig Jensen and Jeff Sands

Members Absent: None.

Staff Present: Mary Cordova, City Administrator; Steve Castenada, Fire Chief; and Bobbie Black Deputy City Clerk

#### **PLEDGE**

Judy Watkins led the pledge of allegiance.

A motion was made by Sands and seconded by Jensen to amend the agenda to add item H, water purchases other than domestic usage.

After a unanimous voice vote by the Council, the motion CARRIED.

#### **CITIZENS COMMENTS**

None.

#### **APPROVAL OF MINUTES**

A motion was made by Heleker and seconded by Nelson to approve the Work Session & Regular meeting minutes of 05-19-2014 as amended, on page 2, Jensen made motion.

After a unanimous voice vote by the Council, the motion CARRIED.

#### **APPROVAL OF BILLS & PAYROLL**

A motion was made by Nelson and seconded by Heleker to approve the City Bills & Payroll in the amount of \$145,544.07.

At the roll call:

Ayes: Wickersham, Dale, Heleker, Nelson, Jensen, Sands

Nays:

The motion CARRIED.

#### **COMMUNICATIONS**

None

#### **PLANNING & ZONING**

**OLD BUSINESS**

A. Treasure Valley Transit – FY 15 Funding Request – Terri Lindenberg, Executive Director addressed the Council. She stated that Idaho and Alabama are the only two states that don't receive state funding. They have had challenges with funding from the City of Ontario. It is up to MCOA to meet the contract requirements. The contract will be renewed in July. They want to maintain existing service, and might have to get Medicare dollars on the Idaho side. The service build lose through the Medicaid program. Will know in the next month. The cost for each City is figured on distance. She stated a similar number of stops are equal between Idaho and Oregon; Idaho has more stops than Ontario. The grant is based on revenue hours of service. They are asking for an additional \$8,700 from three entities to purchase a new bus. They currently split their mileage between two buses so there is not so much wear and tear on one bus. Treasure Valley Transit will look at the viability of servicing if they don't receive funding from Oregon side. If they lose federal funding, they won't be able to do the match. The Council asked if this additional funding could happen in the future again Ms. Lindenberg stated yes. The cost for a new bus is \$128,000 and they rarely trade, due to the value being so low. They might allow backup bus to make a run to Weiser. They had 21,463 rides just for Payette and Fruitland. The Council asked what is considered a ride, and she stated every time a person gets on the bus. They would like to replace a bus every 6 years, so could ask for additional funding for a new bus in the future.

B. Personnel Policy Amendments – Paid Time Off –

A motion was made by Heleker and seconded by Dale to approve the Personnel Policy Amendments – Paid Time Off as presented.

After unanimous voice vote, the motion approved.

**NEW BUSINESS**

A. AIC Voting Delegate

A motion was made by Jensen and seconded by Dale to approve the Mark Heleker as AIC Voting Delegate.

After a unanimous voice vote by the Council, the motion CARRIED.

B. Ordinance1382 - AN ORDINANCE OF THE CITY OF PAYETTE, IDAHO, AMENDING OF TITLE 15 OF THE PAYETTE MUNICIPAL CODE BY ADDING NEW CHAPTER 15.06 ENTITLED REBAR REQUIREMENTS; CREATING PENALTIES FOR VIOLATION; SETTING AN EFFECTIVE DATE; ALLOWING PUBLICATION IN SUMMARY FORM; ESTABLISHING SEVERABILITY; ESTABLISHING REPEALER.  
– 1<sup>st</sup> Reading

A motion was made by Heleker and seconded by Jensen to introduce Ordinance #1382 by title only.

After a unanimous voice vote by the Council, the motion CARRIED.

Ms. Cordova read the ordinance by title only.

A motion was made by Nelson and seconded by Heleker to suspend rules and pass Ordinance #1382 on its 1<sup>st</sup> reading.

After a unanimous voice vote by the Council, the motion CARRIED.

A motion was made by Nelson and seconded by Heleker that ordinance #1382 do pass.

At the roll call:

Ayes: Wickersham, Dale, Heleker, Nelson, Jensen, Sands

Nays:

The motion CARRIED.

- C. Impact Fees – Payette Commercial Complex – There was nothing in the packets, this is just for discussion. Our impact fees are a cost to people to build here. Discussion followed on the use of our revolving loan fund on a case by case basis to off-set commercial impact fees. A transfer could be made from the revolving loan fund to the impact fee account. This is just a creative way for development. The Council discussed if they will pay it back and was stated no, this gives them an incentive. This would not be a revolving loan it would be a disbursement fund. The Council was informed that by ordinance we can't forgo the impact fees. When we received the money it was for economical development and the council decided to set up a revolving loan fund. Heleker likes that we are looking for ways to encourage development in our City. The revolving fund is something unique, this is something that goes out, but comes back. Discussed allocating money towards economic development. Mr. Goodwin has indicated several big projects in the works and this will provide taxes for years to come.

A motion was made by Jensen and seconded by Heleker to allocate \$25,000 from the existing revolving loan fund to offset commercial impact fees by 50% until September 30, 2014, at the discretion of City staff.

At the roll call:

Ayes: Wickersham, Dale, Heleker, Nelson, Jensen, Sands

Nays:

The motion CARRIED.

- D. Resolution #2014-08 – Surplus Property

A motion was made by Heleker and seconded by Wickersham to approve Resolution #2014-08, surplus property.

After a unanimous voice vote by the Council, the motion CARRIED.

- E. Western Treasure Valley Urban Fire & Rescue Mutual Aid Agreement – Chief Castenada talked about the current SRV mutual aid agreement to which we pay a yearly fee for and we train together. Fruitland's Fire Chief wants to get out of SRV and he has approached Ontario and Payette City to enter into an agreement with the City of Fruitland. 70% of Fruitland's calls are mutual aids. It's a money thing with his Council. He has approached SRV about not calling so much for mutual aids. Chief Castenada stated we called Fruitland three times last year. They are a great bunch of guys to work with. He would feel comfortable entering into this agreement on a

year to year basis. Council Sands stated he doesn't see any benefit of the agreement. The Council discussed what will happen to the SRV system if Cities dropped out. The Council felt it was important to keep a strong SRV.

The Council recommended that this be sent to the Public Safety Committee for their recommendation

F. Personnel Policy Amendments – Chapter VI

A motion was made by Heleker and seconded by Sands to approve the Personnel Policy Amendments – Chapter VI.

After a unanimous voice vote by the Council, the motion CARRIED.

G. Phone system – Phoneworks Proposal

A motion was made by Nelson and seconded by Jensen to approve the sales agreement with Phoneworks for a new phone system not to exceed \$10,187.60.

At the roll call:

Ayes: Wickersham, Dale, Heleker, Nelson, Jensen, and Sands

The motion CARRIED.

H. Purchases of water from City for non-domestic use – The Council discussed that this would need to be a contract. Council directed staff to draw up a contract for the purchase of water for non-domestic use. Inspect truck and make sure not contaminating our system. The City will negotiate in contract for purchase of water.

A motion was made by Sands and seconded by Wickersham to direct staff to enter into contract for non domestic water use on a case by case basis.

After a unanimous voice vote by the Council, the motion CARRIED.

### **DEPARTMENTAL REPORT**

Council Heleker thanked Jake Hust and his department for the face lift given to the well house by McCain School. He also stated at the Public Work Meeting that the water department has been updating downtown meters to read at specific times. He also stated that the crosswalk by the track on Highway 95 had been hit and is being replaced. They are also putting the lights up at Wayne and Hwy 52, which is much needed for pedestrian traffic. Councilor Heleker stated they are in need of another citizen member for their committee. The Committee also reviewed design standards for development and public works construction.

### **MAYOR'S COMMENTS**

Mayor Williams stated Friday is the opening ceremony for the Special Olympics. The Police Department will be participating in the torch run from the Dough Boy to Kiwanis Park and at 7:00 PM the Chief will be lighting the torch for opening ceremony. He stated that Patricia Metcalf has been hired as the part-time interim librarian director by the Library Board of Trustees. The City hired Ken Johnson as a maintenance person for the City. This Wednesday is the SREDA meeting at the fire station at 7:00 am. Mayor Williams stated that the City has received a make a wish

request. The agreement was signed for bike Terrain Park today. Next meeting Mayor Williams will not be in attendance.

**CITIZEN'S COMMENTS**

Mary Cordova stated that the city received funding for Phase II for the boat ramp. She also stated that the Fire Department received a grant for medical bags for children. The Rural Department received funding for shelters and packs. On Thursday at 10:15 will be the ribbon cutting for our new amphitheater.

Jonny Cochran – Hardin Sanitation addressed the Council. He would like some time to talk to the Council about price increases. He stated he would like to be considered for annexation.

The Council was informed that the Miracle league field was granted \$10,000 from the Minnesota Twins.

**ADJOURNMENT**

A motion was made by Heleker and seconded by Jensen to adjourn the regular meeting at 8:47 PM.

After a unanimous voice vote by the Council, the motion CARRIED.

Signed this \_\_\_\_ day of \_\_\_\_\_, 2014.

\_\_\_\_\_  
Jeff Williams, Mayor

ATTEST:

\_\_\_\_\_  
Bobbie Black, Deputy City Clerk

**MINUTES  
PAYETTE CITY COUNCIL  
Special Meeting  
June 9, 2014**

**11:00 AM – Special Meeting**

A special meeting of the Payette City Council was called to order at 11:00 AM by Mayor Jeff Williams in the City Council Chambers of Payette City Hall, 700 Center Avenue.

**ROLL CALL**

Members Present: Mayor Jeff Williams, Mark Heleker, Nancy Dale, Jeff Sands, Ray Wickersham and Craig Jensen

Members Absent: Lee Nelson was excused

Staff Present: Mary Cordova, City Administrator and Bobbie Black, Deputy City Clerk

**NEW BUSINESS**

- A. Discussion of Acquisition of Real Property – Mayor Williams stated that the City has talked about the need of improving the intersection of Center & Iowa. There is a piece of property – north of our city well that we might be able to obtain. We own the lot just south of it. It is a challenging lot due to substandard size and etc. The Mayor showed a map with the house and lot and little piece of land that goes with the house. It goes nowhere. The City could use this as a storm water location. We need to run the street water into a location. We could possibly purchase the land and the 25' strip. It is hard to imagine a future owner taking care of that little piece of property and it is next to City property. The realtor has an accepted offer on house, but not on the lot. If council wants to say to go ahead and negotiate, the Mayor will move forward. They are asking \$9,000 for just the lot, if we can do the lot line adjustment it might be more appealing. Councilor Dale asked when we would see the development of the curbs. Ms. Cordova stated that we have been talking about that for the past few years, from Iowa to city limits. There is not a storm drain at the present time. There is an open pit that drains further down Center. Elevation breaks by 2375 Center Avenue and nowhere to drain to Iowa. The water drains down toward Decker Drive at the present time. There is a storm drain pond entering Visa Hills. Also, when we improve the intersection, the driveway is going to be relocated, they can't back out where it is now. We already purchased right of way on Center and own right of way on Iowa. The Council asked if the lot is big enough to hold for what we want, to retain water and the Council was informed yes. Doug Argo has looked at it, and a test hole would need to be performed first. The Mayor was asked if we could purchase everything for \$8,000 and he stated he doesn't know. He needed direction to negotiate for purchase from the Council before moving forward. Councilor Dale stated it is so important to get Iowa developed, and this is a great opportunity to do it. The Council asked if this will cause any conflict with the well site being right there, and was informed no, but we have to stay 50' away. The lot for sale is 75'X90' without the 25' extra strip. It doesn't look like they have a lot of options for the lot. Discussed limiting the price to purchase at \$7,000 that seems reasonable and assist with relocating driveway along corner. The right of way is within a foot of the setback of the garage. Discussed if we already own right of way on Center and Iowa we should move forward with possibly obtaining this lot.

A motion was made by Heleker and seconded by Wickersham to negotiate to purchase property for \$7,000 with no more than a maximum of \$9,000 to use for storm water retention for lot and 25' strip subject to testing.

A motion was made by Heleker and seconded by Dale to adjourn the regular meeting at 11:28 AM

The motion CARRIED.

Signed this \_\_\_\_\_ day of \_\_\_\_\_, 2014.

\_\_\_\_\_  
Jeff Williams, Mayor

ATTEST:

Comments: My sincere thanks to the city of Payette and all volunteers for a fabulous weekend hosting the state Special Olympics games. As a fan of MLB my only knowledge of Payette before this past weekend was that it is the hometown of Harmon Killebrew. Now I understand where this kind and gracious man (known as killer) got his roots.

Thanks Again,

Pat Donohue

# *Western Treasure Valley Urban Fire & Rescue Mutual Aid Agreement*

AGREEMENT entered into this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between City of Fruitland, Idaho and City of Payette, Idaho, duly organized municipal corporations of the State of Idaho, and City of Ontario, Oregon, a duly organized municipal corporation of the State of Oregon.

WHEREAS, it is the purpose and policy of the parties named herein to provide the best and most efficient fire protection and rescue services for the patrons of their respective jurisdictions; and

WHEREAS, today's public safety realities have highlighted the need for mutual aid agreements that can pool resources and assets in order to effectively respond to local urban incidents beyond a single jurisdiction or a single entity resource capability; and

WHEREAS, departments that are responsible for mostly urban-type incidents with a minimal wild land interface have a particular training and equipment dynamic that needs to be addressed; and

WHEREAS, to ensure the fire service community reaches optimal utilization of finite resources and maximum interoperability, mutual aid agreements set the conditions between and among sending and receiving response entities and/or jurisdictions. These agreements allow for partnerships among jurisdictions and response agencies, which benefit public safety and public service officials; and

WHEREAS, it appears to be the mutual benefit and advantage of the parties to enter into a mutual fire protection agreement, providing for cooperation and mutual use of firefighting/rescue forces and apparatus between the parties; and

WHEREAS, cities of the State of Idaho are authorized to enter into agreements for mutual protection of their respective service areas under Idaho Code section 31-1430A; and

WHEREAS, cities of the State of Oregon are authorized to enter into agreements for mutual protection of their respective service areas under ORS 190.010.

NOW, THEREFORE, in consideration of the mutual benefits herein contained and of the mutual covenants running from one party herein to the other, it is mutually agreed as follows:

1. **USE OF FIREFIGHTING FORCES AND APPARATUS:** Whenever a fire occurs within the boundaries of a party to this Agreement and the aid of any other

party to this Agreement is requested in combating and controlling such fire, a party, upon receiving a request for aid, shall respond with assistance of its personnel and use of its apparatus to the fullest extent in combating such fire or fires and in the protection of property and life endangered thereby.

It is understood and agreed by and between the parties hereto that all duties, obligations and responsibilities for fire protection between the parties are equal and mutual in all respects, and that the parties to this Agreement will cooperate in providing the most efficient and comprehensive mutual fire protection possible within the boundaries of each party to this Agreement when requested to do so, taking into consideration the geographical areas to be served and the equipment and apparatus available for fire protection.

2. **PRIORITIES:** If the firefighting personnel and equipment of a party being requested to respond are already engaged in fire protection activities at the time a call for assistance is received, that party shall not be under any obligation to the requesting party or to any other person or persons to furnish personnel and equipment therefore, unless the request is renewed after that party's equipment and personnel become available to respond. The responding party may at any time withdraw its personnel and equipment for the purpose of responding to a fire call within its own boundaries, and no liability or obligation shall be incurred by a party for withdrawal for responding to a call within its own boundaries.
3. **RESPONSIBILITIES AND CONTROL:** The party responding to a call for assistance shall be responsible for delivering personnel and equipment to the location specified by the requesting party. On arriving at the location of the fire, the officer in charge of the personnel and equipment of the responding party shall report to the officer in charge of the requesting party. The requesting party shall then assume full charge, control, direction and supervision of all equipment, apparatus and personnel dealing with the fire. In no case shall the responding party be required to assume the responsibility of the operation of, or attempting to control or deal with the fire. The responding party shall operate its own equipment.

If the officer in charge of the personnel or equipment of the responding party believes the personnel or equipment for which he is responsible are being subjected to unreasonable risk of injury or damage or are being required to perform beyond their capacity, limits, knowledge or training, he shall be entitled to withdraw such personnel or equipment after notifying the officer of the requesting party who is in charge at the scene.

4. **COMPENSATION:** The parties hereto shall at all times be responsible to its own employees for the payment of wages and other compensation and carrying of workman's compensation and liability insurance, and each party shall be responsible for its own equipment and shall bear the risk of loss therefore irrespective of whether or not its personnel, equipment, and apparatus are being

used in fighting a fire within the area of primary responsibility of the employing district or not. No party hereto shall be liable to any other party named herein for payment for use of its personnel and equipment under the terms of this Agreement.

5. **STANDARDIZATION OF EQUIPMENT:** The parties hereto agree to immediately take such steps as are necessary to standardize, as nearly as practical, all of the equipment and apparatus used by said parties in order that said equipment and apparatus may be more fully utilized by virtue of standard size couplings, hose, pumps and other apparatus in combating such fire or fires and in the protection of property and life within the confines of the parties named herein.
6. **COOPERATION AMONG APPOINTED OFFICIALS:** The Fire Chiefs of each party to the Agreement shall meet at least once annually during the duration of this Agreement for the purpose of reviewing the reciprocal activity of the parties. Should the participants at the meeting determine that adjustments to this Agreement are required to ensure continuing cooperation among the parties, they shall make such recommendations to the respective party they represent. Said adjustments may then be satisfied by the respective governing bodies of the parties hereto, and shall be effective when ratified by all parties. An addendum shall be executed by the parties and attached to this Agreement to reflect any such modifications.
7. **TERM AND AUTOMATIC RENEWAL:** The initial term of this Agreement shall be for a period from the date hereof from the execution of this Agreement until January 1, 2016. Unless a party notifies the other parties of its intention not to renew and continue this Agreement, such term shall be automatically extended for a further period of one (1) year and shall only be terminated as herein provided. In the event of such continuation on a year to year basis, all of the terms and provisions hereof shall continue in full force and effect during said extensions.
8. **TERMINATION:** It is understood and agreed that either party hereto may terminate its participation and concurrent rights and duties under this reciprocal agreement by delivering to the other party hereto a notice of such termination, said notice to be in writing and to be given at least sixty (60) days prior to the termination date desired by the terminating party.
9. **LIABILITY:** The original employing party shall have and assume complete liability for all of the acts of its personnel and the operation of its equipment provided under this Agreement.
10. **MUTUAL HOLD HARMLESS:** The parties agree to indemnify and hold the other parties harmless from any and all liability, loss, damage or claims, of any description, which results from the negligence of the party and its employees,

officer, and/or agents that the party may suffer arising out of or in connection with this Agreement.

11. **INSURANCE:** Each party to this Agreement agrees to carry and maintain a comprehensive general liability policy in the minimum amount of \$1,000,000 per occurrence with a \$2,000,000 annual aggregate to protect the party from and against any and all claims, losses, actions, and judgments for damages or injury to persons or property arising out of or in connection with its acts or performance under this Agreement.
  
12. **LIMITATION ON LIABILITY OF PARTIES:** The rights and benefits arising under this Agreement shall run to the parties to this Agreement and not to any person, firm, association, corporation or governmental unit not a party hereto. This Agreement is not to be construed to create a claim or cause of action in favor of any persons or entity entitled to protection by one city against any other city which is a party to this Agreement for failure to respond or for delay in responding to a request for assistance of for inefficiency or ineffectiveness in providing firefighting services.
  
13. **PRIOR AGREEMENTS:** All prior agreements for reciprocal fire protection, both oral and written, which may have been entered into previously between the parties to this Agreement, are to be terminated from this point forward, and the terms of this Agreement are controlling as to all the reciprocal rights and duties of the named parties in providing reciprocal fire protection between themselves, but this Agreement is not intended to terminate any Automatic Aid Agreement.

IN WITNESS WHEREOF, the parties have hereunto set their hands and seals as of the day and year first above written.

DATED this \_\_\_\_\_ day of \_\_\_\_\_, 2014.

## AGENDA STATEMENT

**To:** Honorable Mayor & Members of the Payette City Council  
**From:** Tiffany Howell  
**Date:** 6/13/2014  
**Re:** Salsa Grill

---

### BACKGROUND & JUSTIFICATION:

Maria Cadiz & Fabian Ibarra dba Salsa Grill, Inc. are wanting to open soon. To help them meet this deadline we are asking you to approve their beer and wine license prior to the Planning & Zoning Meeting on June 26, 2014.

We ask that you approve the beer and wine license with the following contingencies:

- Approval from Planning & Zoning Commission
- All State, County, Southwest District Health and City licenses are acquired

# City of Payette

## Conditional Use Permit Application

### OFFICE USE ONLY

Date Received 6-3-14

Fees Paid  Y /  N (BB)

#### Non-Refundable Fees:

Application..... \$100.00

#### Applicant

Name MARIA G. CADIZ Fabian Ibarra Address 1029 CENTER AVE.

City PAYETTE State IDAHO Phone (208) 405-1444

#### Owner

Name NCR Properties Address PO Box 818

City PAYETTE State IDAHO Phone

#### Property Covered by Permit

Address 501 N 16<sup>th</sup> SUITE #1 Zone Commercial

#### Legal Description (Lot, Block, Addition, Subdivision)

Hunter gate Plaza

#### Nature of Request (Briefly explain the proposed use)

MEXICAN RESTAURANT. to sell beer & wine

#### Existing use of property

MEXICAN RESTAURANT

#### Will this have an impact on schools?

No

## Conditional Use Permit

The following information will assist the Planning and Zoning Commission to determine if your proposal will meet the requirements under the zoning ordinance.

1. What is the estimated water usage per month? Are the existing mains adequate to provide fire protection?

Unknown, owner pays

2. What is the estimated sewer usage per month? Will pretreatment be necessary?

Unknown, owner pays

3. What is the estimated daily traffic to be generated? Will the traffic be primarily private vehicles or commercial trucks?

Normal restaurant patrons

4. If commercial, industrial, or a home occupation, what will be the hours of operation?

Monday - Saturday 11:00 am - 10:00 pm

5. Will storm water drainage be retained on site? Is an existing storm drain available? Is it at capacity? If so, will new facilities be constructed?

existing building

6. If proposed use is residential, describe number and type of dwelling units. Will this be student housing: multifamily for young families, singles and couples, or elderly?

N/A

7. What provisions has been made for fire protection? Where is the nearest fire hydrant? Is any point of the building further than 150 feet from access sufficient in width for firefighting equipment?

8. How much parking is being provided on-site? Do the aisle widths and access points comply with ordinance requirements? Has landscaping been provided in accordance with the ordinance?

9. Where will solid waste generated be stored? Is access adequate for the City collection?

yes

10. What is the type of noise that will be generated by the use? What are the hours of noise generation?

No noise

11. What type of equipment will be used in the conduct of the business?

Kitchen equipment

12. What are the surrounding land uses? Has buffering been provided as required by the ordinance

Commercial

13. Are any air quality permits required? Is dirt or other dust creating materials moved by open trucks or box cars?

No.

14. Will the parking lot or other outdoor areas have lighting?

Yes.

15. Are passenger loading zones for such uses as daycare centers and schools provided? How is (school) busing routed? For commercial uses, where are the loading docks? Is there sufficient space for truck parking?

Yes

16. If a commercial, multi-family, or public assembly use, where is the nearest collector street? Arterial Street?

Hwy 95 to 7<sup>th</sup> Ave N.

17. What, if any, signage is anticipated in connection with the proposed usage?

use where existing sign is

*The Commission or Council may address other points than those discussed above. Including a narrative attached to this application addressing at least those applicable points will assist in processing your application.*

**A PLOT PLAN MUST BE ATTACHED IN ORDER TO PROCESS THIS APPLICATION.**

- Included on the plot plan will be setbacks, parking, etc.

**A LIST OF ALL NEIGHBORS WITHIN 300 FEET OF THE AFFECTED PROPERTY MUST BE INCLUDED WITH THIS APPLICATION**

- List may be obtained at Payette County Assessor's Office 1130 3<sup>rd</sup> Avenue North, Payette

Formal Notice will be sent to applicant after approval of a Conditional Use Permit. Notice will state the conditions of the permit. If conditions are violated or not met there will be a 90 day period to cure the problem. Failure to comply with the terms may result in revocation of the Conditional Use Permit.

## AGENDA STATEMENT

**To:** Honorable Mayor & Members of the Payette City Council  
**From:** Tiffany Howell   
**Date:** 6/13/2014  
**Re:** Westside Market, Inc.

---

### **BACKGROUND & JUSTIFICATION:**

Juan & Sheryl Lopez dba Westside Market, Inc. are wanting to open the week of July 1<sup>st</sup>. To help them meet this deadline we are asking you to approve their beer and wine license prior to the Planning & Zoning Meeting on June 26, 2014.

We ask that you approve the beer and wine license with the following contingencies:

- Approval from Planning & Zoning Commission
- All State, County, Southwest District Health and City licenses are acquired

**City of Payette**

**Conditional Use  
Permit Application**

**OFFICE USE ONLY**

Date Received 10/3/14

Fees Paid (Y) / N

**Non-Refundable Fees:**

Application..... \$100.00

**Applicant**

Name Westside Market Inc. Address 450 N 6th St

City Payette State ID Phone 836661

**Owner**

Name Juan & Sheryl Lopez Address 915 7th Ave N

City Payette State ID Phone 836661

**Property Covered by Permit**

Address 450 N 6th St Zone C2 Commercial

Legal Description (Lot, Block, Addition, Subdivision)

**Nature of Request (Briefly explain the proposed use)**

Grocery store to sell beer & wine per Sheryl Lopez

**Existing use of property**

Grocery store

**Will this have an impact on schools?**

no

## Conditional Use Permit

The following information will assist the Planning and Zoning Commission to determine if your proposal will meet the requirements under the zoning ordinance.

1. What is the estimated water usage per month? Are the existing mains adequate to provide fire protection?

yes

2. What is the estimated sewer usage per month? Will pretreatment be necessary?

no

3. What is the estimated daily traffic to be generated? Will the traffic be primarily private vehicles or commercial trucks?

private / some commercial

4. If commercial, industrial, or a home occupation, what will be the hours of operation?

7am - 11pm daily

5. Will storm water drainage be retained on site? Is an existing storm drain available? Is it at capacity? If so, will new facilities be constructed?

6. If proposed use is residential, describe number and type of dwelling units. Will this be student housing: multifamily for young families, singles and couples, or elderly?

N/A

7. What provisions has been made for fire protection? Where is the nearest fire hydrant? Is any point of the building further than 150 feet from access sufficient in width for firefighting equipment?

new fire extinguishers / corner of 7th Ave & 6th Street / NO

8. How much parking is being provided on-site? Do the aisle widths and access points comply with ordinance requirements? Has landscaping been provided in accordance with the ordinance?

50+ more spaces / yes / NA

9. Where will solid waste generated be stored? Is access adequate for the City collection?

yes / no

10. What is the type of noise that will be generated by the use? What are the hours of noise generation?

none / na

11. What type of equipment will be used in the conduct of the business?

fridge / freezer, office equip, cash registers,

12. What are the surrounding land uses? Has buffering been provided as required by the ordinance?

13. Are any air quality permits required? Is dirt or other dust creating materials moved by open trucks or box cars?

na

14. Will the parking lot or other outdoor areas have lighting?

yes

15. Are passenger loading zones for such uses as daycare centers and schools provided? How is (school) busing routed? For commercial uses, where are the loading docks? Is there sufficient space for truck parking?

na

yes

16. If a commercial, multi-family, or public assembly use, where is the nearest collector street? Arterial Street?

7th ave N & N 6th St

17. What, if any, signage is anticipated in connection with the proposed usage?

one sign on corner (already there)

*The Commission or Council may address other points than those discussed above. Including a narrative attached to this application addressing at least those applicable points will assist in processing your application.*

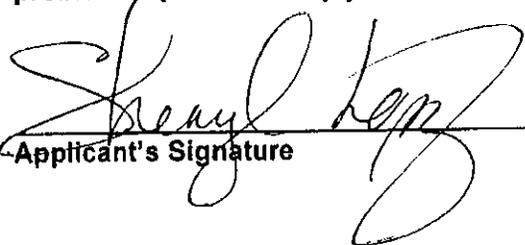

**A PLOT PLAN MUST BE ATTACHED IN ORDER TO PROCESS THIS APPLICATION.**

DESIGN STANDARDS  
FOR  
DEVELOPMENT  
AND  
PUBLIC WORKS  
CONSTRUCTION

Approved April 20th, 2009

Revised \_\_\_\_\_

## TABLE OF CONTENTS

---

### Chapter

- I. General
- II. Water
- III. Sanitary Sewer
- IV. Storm Sewer / Drainage
- V. Pressurized Irrigation
- VI. Streets
- VII. Residential Construction
- VIII. Commercial Construction
- IX. Project Inspection
- X. Landscape and Viewscape

## **CHAPTER I GENERAL:**

This Document is a summary of the design standards for the City of Payette. It is derived from the Payette Municipal Code (PMC), the City of Payette Transportation Master Plan (TMP), and the City of Payette Water Master Plan, as a convenience to people wishing to develop within the City. Additional information is available in the PMC and TMP, and in the event of conflict, the parent documents take precedence over this summary.

The City of Payette has adopted the current Edition of the Idaho Standards for Public Works Construction (ISPWC). Prior to any public work development or construction, the contractors or developers shall review the above adopted standards. The City has made construction standards in conjunction with the current edition of the ISPWC. These City standards include acceptable materials, construction practices, and other specified requirements, which may not be covered under the ISPWC standards or contained in the City Code.

These standards have been made in conjunction with the current ISPWC. The intention of these Construction Standards is not to conflict with the above stated standards but rather to supplement and specify construction methods, materials, sizes, and practices. If a question arises between the two because of a conflict, then this matter shall be brought to the attention of the City Engineer or the City Administrator for clarification.

NOTE: All traffic control devices are per current MUTCD standards

Erosion control must meet State and Federal standards. Any site 1 acre or more in size must have an erosion control plan and file a notice of intent with EPA. These are State and Federal requirements, not City requirements.

## CHAPTER 2 WATER:

### 1. General:

All materials, construction, testing, and inspection shall be in accordance with the current ISPWC Divisions 300, 400, and all other applicable divisions therein. All proposed developments shall be submitted to the City for approval according to City Ordinance. Water pipe shall be extended to the furthest property boundaries of the development.

All private water mains shall have IDEQ approval prior to connecting to the public water system. The State definition of water mains is shown on the attached figures.

### 2. Fire Hydrants:

#### A. Spacing:

- i. Hydrant spacing shall be at no more than 400 to 500 foot intervals as approved by the Fire Chief (2006 IFC).
- ii. Hydrant spacing and location shall be reviewed and approved by the Payette Fire Department during the standard review required by City Ordinance.
- iii. All water mains installed on cul-de-sacs or similar dead end streets shall have a hydrant located at the end of the water line.

#### B . Fire Flow Requirements:

- i. Single family residential: 1,500 gpm minimum.
- ii. Commercial, industrial, and multi-family developments are dependent on the nature of the development and suppression needs per 2006 IFC.
- iii. Determination of fire flow requirements on an individual basis shall be based, as a minimum, on the requirements of the adopted edition of the International Fire Code and the proposed building site, configuration, size and type.

#### C. Materials:

- i. Fire Hydrants shall be Mueller Centurion and painted with two coats of approved red Hydrant Enamel.
- ii. Fire Hydrants shall be installed in accordance with the current edition of the ISPWC Section 403 and per SD 404 modified (attached)
- iii. Fire hydrant lines to be ductile iron from main to hydrant.

### 3. Water Pipe, Fittings and Valves:

A. Materials: All Water Pipe, Fittings, and Valves shall be in accordance with current edition of the ISPWC Section 400 and 402. Water pipe, Fittings and Valves shall be City approved equivalent or the following:

i. Water Pipe:

a) Lower Pressure Zone

- Pressure Class 350 cement-lined ductile iron pipe meeting ANSI/AWWA C151 for diameters of 6" to 64";  
or
- AWWA C900 PVC Class 235 DR 18 pipe for diameters up to 12".

b) Intermediate and Upper Pressure Zones

- Pressure Class 350 cement-lined ductile iron pipe meeting ANSI/AWWA C151 for diameters of 6" to 64";  
or
- AWWA C900 PVC Class 305 DR 14 pipe for diameters up to 12".

ii. Fittings: Ductile Iron flanged fitting or M.J. ANSI/AWWA C153.

iii. Valves:

- a) Ductile Iron flanged or M.J. valves ANSI/AWWA C509;
- b) Tracer wire at all valves shall be located on the outside of the valve box and pass through a drilled hole within 6" of the top of the box. The wire is not allowed to come into the valve box from the bottom or between the valve box and the slip top. See SD-406.
- c) Water valves manufactured by Mueller or Clow.
- d) Valve box in paved areas shall have an 18-inch diameter concrete collar per SD-406

B. Trench Backfill: Type A backfill according to the specifications set forth in the current edition of the ISPWC section 306.3.3. and Chapter 6, Section N of these Design Standards.

C. Thrust Blocks: Thrust blocks shall be placed in dry conditions and in accordance to the specifications set forth in the current edition of the ISPWC, SD-403.

- D. Testing: Water Mains shall be tested by the Contractor prior to permitting such water mains to be open to the distribution system. City personnel or designer shall be present during all water main testing. Failure to have City personnel present is sufficient reason for requirement to retest. Developer's engineer shall provide certification of testing and testing results to the City and City Engineer.
- i. Disinfection: Water mains shall be disinfected according to the specifications set forth in the current edition of the ISPWC section 401.3.9 prior to leak and pressure testing.
  - ii. Pressure Testing: Water mains shall be pressure tested according to the specifications set forth in the current edition of the ISPWC section 401.3.6. exceptions are as follows:
    - a) If pressure during testing drops 5 psi or more the test is considered to have failed regardless if leakage is below allowable;
    - b) All valves shall be exposed prior to any testing.
- E. Location: Water mains shall be designed so a minimal number of nonpotable water crossings occur in the construction for developments and that they generally follow the corridor described below. All water line locations will be approved by the City Water Works Supervisor or the City Engineer. Valves that are connected to the City main lines become city property and can only be operated by city personnel. Non-potable water crossings shall be in accordance with ISPWC SD-407. Lines shall be extended to furthest property boundary.
- F. Typical corridor: Water mains shall be located as follows unless otherwise approved by the City Water Works Supervisor or the City Engineer.
- i. 5'-10' north and east of centerline
  - ii. Minimum 4' from lip of gutter
  - iii. Minimum 10' separation from non-potable lines for mains and services
- G. Size: Water main sizes shall be the following except when otherwise recommended by the City Engineer for fire flows or other system conditions:
- i. Minimum size is 8" in diameter.
  - ii. Mains may have to be upsized per Water Master Plan (copy at City Hall).
- H. Valve configuration shall be as follows:
- i. All tees as a minimum shall have one valve on the run and one valve on the branch.
  - ii. All crosses shall have valves on all legs.
  - iii. When connecting new water line to an existing water line that is 10" or greater, a valve at all branches (except at a hydrant) is required.

- I. Cover: Water mains shall have a minimum of 48" cover and a maximum cover of 60". Cover greater than 60" may be allowed where obstructions occur, but must be approved by the City.
- J. Dead-end Water Mains: Dead end mains shall be avoided whenever possible.
  - i. Dead end water mains shall only be permitted when phased development is approved and water service scheduled to continue along the water main run, or on approved cul-de-sacs.
  - ii. Dead-end water mains shall terminate with a valve followed by at least 10 feet of water line with an end cap and thrust block clearly marked at the surface.
  - iii. Dead end water mains shall have a Fire Hydrant within 10 feet of the termination of the main.
  - iv. A water valve shall be placed at the nearest tee, cross, or other on the leg of the dead end run.
- K. Water Main Stubs: No water services shall be installed on water main stubs to future developments.
- L. Water Mains shall be extended to the furthest property boundary to enable future development to connect and extend.
- M. Water Valves shall be anchored to tees or crosses when appropriate with all-thread bolts (stainless steel or galvanized) or strapped to thrust blocks with galvanized straps and approved by the City.
- N. At all times, when laying pipe is not in progress, open-end pipe shall be closed by watertight plug.
- O. Contractors working in the city are not to open, close, or tamper with any valve. The contractor shall notify the city when a valve needs to be opened or closed.

#### 4. Water Services:

- A. Static delivery pressure at each service shall be between 50 + 80 psi as measured at the meter
- B. Separate services are required for each building. Separate services are required for each living unit in a building when the potential for individual ownership exists.
- C. Service Lines: Service lines shall be minimum 1" diameter Class K copper pipe on ductile iron mains or 200 psi copper tubing size poly pipe on PVC mains with stainless steel stiffeners with tracer wire from water meter to water main.

- D. Saddle: Saddles for water mains shall be stainless steel, Mueller with CC threads, or City approved equivalent. Saddle with stainless steel band required at all main line connections. Saddles 12" or greater shall have a stainless steel double strap.
- E. Corporation Stop: Corporation stops shall be Mueller H-15008 or City approved equivalent. Corporation stops required at all main line connections.
- F. Curb Stop: Curb stops shall be Mueller H-15209 or City approved equivalent. A curb stop is required at the base of the meter setter on the water main side.
- G. Meter Setter: Meter setters shall be an 18" minimum Mueller Model #H-1404-2 and have a dual check valve. A five (5) foot section of Class K copper pipe or 200 psi poly pipe with tracer wire shall be extended on the customer side of the meter vault. Meter setter shall be centered in meter vault.
- H. Meter Vaults: Meter vaults shall be made of 18" smooth interior corrugated HDPE pipe, ADS N-12. Meter vault lids shall be D&L Fory USA L-2240 Water Meter Cover with recessed, offset hole. The knockout shall be in place. Meter vaults shall be for individual meters.
- I. Meter vaults shall be located on the opposite side of a building lot from the location of mailboxes.
- J. Meters: All water meters shall be a 5/8 inch by 3/4 inch Neptune T-10 with ProRead Encoded Register and Dual R900V3 RF Pit MIU for up to one inch (1") diameter and Neptune for greater than one inch (1") diameter.
- K. Location: Water services shall be located within the City's right of way approximately one foot (1') from the property line unless otherwise approved by the City Water Works Supervisor or the City Engineer. A one inch (1") diameter electrical conduit shall be provided between meter vaults that adjoin a common property lot line.
- L. The developer shall provide and install all materials for water services except the water meter. The City shall provide water meter.

5. Construction:

- A. By licensed plumber and/or a licensed public works contractor.

## 6. Locators & Markers:

- A. All non-metallic water mains shall be installed with a continuous, magnetically detectable warning tape installed four (4) to six (6) inches below finished grade directly over the pipe and be continuously marked "Caution, Water Main Buried Below" for location purposes. A continuous 12 gauge copper tracer wire shall be installed the full length of all water mains. **Locate wire shall run on outside of valve box then through a hole located at the top (see SD-406).** In addition, all PVC water mains shall be either a solid blue color or white with blue lettering. All lettering shall appear legibly on pipe and shall run the entire length of the pipe.
- B. On curbed streets the exact location for each installed service shall be marked by etching or cutting "W" in the concrete curb. Where no curb exists, locations shall be adequately marked by a method approved by the City. A steel post shall be placed at the end of each service similar to ISPWC SD-512.

## **CHAPTER 3 SANITARY SEWER:**

### 1. General:

- A. All materials, construction, testing, and inspection shall be in accordance to the current edition of the ISPWC Divisions 300, 500, and all other applicable divisions therein. All proposed developments shall be submitted to the City for approval according to City Ordinance.
- B. Public sewer mains to be 8-inch minimum diameter. May need to be upsized per master plan. Public sewer mains shall be extended through all new development to allow future development to connect to and extend the main so far as gravity flow can be maintained.
- C. Public sewer mains shall end at a manhole. Cleanouts are not allowed on public sewer mains. No surface water, downspouts, foundation drains, or other drainage to be attached to sewer services or the main sewer line. (PMC 13.08.037)

### 2. Industrial Users:

Pretreatment is required per PMC 13.10.

3. Testing:

Sanitary Sewer Mains shall be tested by the Contractor prior to permitting such sewer main to be open to the collection system. City personnel or designated representative shall be present during sewer main testing. Failure to have City personnel or designated representative present during all testing is sufficient reason for requirement to retest. Developer's engineer shall provide certification of testing and testing results to the City and City Engineer.

- A. Pressure Testing: Sanitary Sewer mains shall be pressure tested according to the specifications set forth in the current edition of the ISPWC.
- B. Visual Test: A televised video of all sections of sewer mains shall be provided to the City. All visible leaks shall be repaired, even though the leakage may be below allowable limits. All repairs shall be inspected by the City prior to backfilling.
- C. Trench Compaction Testing: Trench compaction testing shall be in accordance with Section 6. N.. Testing and retesting shall be in accordance with the specifications set forth in the current edition of the ISPWC.

4. Cover:

- A. Where possible sewer to be at depth to provide basement service (PMC 13.08.036).
- B. 6.5-foot typical to avoid conflict with water mains and services
- C. 3.5-foot minimum

5. Typical Corridor/Location:

- A. 5'-10' south and west of centerline
- B. Minimum 4' from gutter
- C. Maximum 400' manhole spacing
- D. Minimum 0.10' drop through manholes
- E. Minimum slopes per Ten State Standards (Recommended Standards for Wastewater Facilities, A report of the Wastewater Committee of the Great Lakes – Upper Mississippi River, 2004 edition)

6. Private sewer mains:

In some instances, developer may desire to install a private sewer main as defined by Idaho Department of Environmental Quality (IDEQ). Plans for all such private mains must be reviewed and approved by IDEQ prior to construction. Developer must show proof of approved plans to City prior to connecting private sewer main to public sewer main. See attached Standard Drawings SD-511 and SD-511A.

7. Manholes:

- A. Materials: Sewer manholes shall be constructed in accordance with the current edition of the ISPWC.
- B. Testing: Sanitary sewer manholes shall be tested prior to permitting such sewer manhole to be open to the collection system. Testing shall be in accordance to current edition of the ISPWC. City personnel or designated representative shall be present during testing. Failure to have City personnel or designated representative present during all testing is sufficient reason for requirement to retest. Developer's engineer shall provide certification of testing and testing results to the City.
- C. Location: Sewer manholes shall be located within 5'-0" of the centerline of the street unless otherwise approved by the City Public Works Supervisor or the City Engineer.
- D. External sealing system: All manholes shall be watertight. An external sealing system may be required to be installed on the outside of the manhole at the barrel joints in addition to the joint sealing system specified in the current edition of the ISPWC.
- E. Connection into an existing manhole or construction of a drop manhole or special manhole shall not be accepted without full time inspection by approved City staff or the City Engineer.

8. Pressure Sewer Pipes:

- A. Materials: All pressure sewer pipes shall be in accordance with the current edition of the ISPWC. Pressure sewer pipe shall be City approved equivalent or the following:
  - i. Class 52 cement-lined ductile iron pipe with a fused calcium aluminate cement mortar lining (H<sub>2</sub>Sewer Safe) as manufactured by Griffin Pipe Products meeting ANSI/AWWA standards.
  - ii. AWWA C900 PVC Class 235 DR 18 pipe or AWWA C909 PVC.
  - iii. Air Relief / Clean-out stations shall be provided every 600 feet.

- B. Testing: Sanitary sewer pressure mains shall be tested prior to permitting such sewer main to be open to the collection system. Testing shall be in accordance to current edition of the ISPWC. City personnel or designated representative shall be present during testing. Failure to have City personnel or designated representative present during all testing is sufficient reason for requirement to retest. Developer's engineer shall provide certification of testing and testing results to the City and City Engineer. Trench compaction testing shall be completed in accordance with Section 6.N. Testing and retesting shall be in accordance with the specifications set forth in the current edition of the ISPWC.
- C. Locating Wire Boxes: Shall be in accordance current edition of the ISPWC. Locating wire boxes shall be installed on pressure sewer mains at a maximum spacing of 400 feet.
- D. Cover: Pressure sewer mains shall have a minimum of 42" cover and a maximum cover of 60". Cover greater than 60" may be allowed where obstructions occur, but must be approved by the City.

9. Sewer Services:

- A. Connection to Mains: Service wyes or tees shall be used on new main installations. Saddles are not acceptable. All sewer services shall be connected to the sewer main. In the event that an exception is made and a service is connected to a main line by means of a manhole, the service flow direction shall be pointed down stream and at an angle of less than 45 degrees to the direction of flow, and the service shall enter the manhole at the mid-point elevation of the sewer main.
- B. Sewer Service Shut-off: A tee in the sewer service line shall be located behind the sidewalk to allow for the insertion of a sewer plug on the service line. The tee shall be installed in accordance to ISPWC SD506A.
- C. Service Markers: In addition to requirements set forth in the current edition of the ISPWC, sewer services shall also be marked with a 5 foot metal T post and with a permanent "s" stamped in the curb, (tracer wire may be required).
- D. Backflow preventer required on all services (PMC 13.08.141)
- E. No services allowed in manholes (PMC 13.10.040.E)
- F. Separate service required for each building. Minimum diameter is 4-inch (PMC 13.08.033)
- G. Locate near midpoint of each lot
- H. 5-foot minimum distance from service to edge of manhole
- I. 5-foot minimum distance between services
- J. Extend service stub past utility easements for new construction

10. Construction:

- A. By licensed plumber and/or public works license.
- B. By authorization of Wastewater Superintendent.

## **CHAPTER 4 STORM SEWER & DRAINAGE:**

1. General:

All proposed storm sewer and drainage improvements shall be submitted to the City for review.

Storm Drainage must be contained on-site and meet the State of Idaho's BMPs (PMC 16.28.050, PMC 17.72.020).

Storm drainage allowed in open space. Must be landscaped (PMC 17.24.050.F)

All storm water from all development shall be contained on site. Applies to all new development including but not limited to: Streets, Commercial, Industrial, and Residential Development.

The storm water runoff from the proposed development cannot be diverted and released to any other property, storm drain, drainage facility, or any other conveyance system, unless there is written permission that the receiver agrees, as evidenced by valid and binding public document, to receive a certain definite quantity from the development. Said binding public document shall be submitted and approved by the City prior to commencing construction.

2. Collection Piping And Catch Basins:

A. Materials:

- i. All storm drainage pipes shall be ASTM 3034 SDR 35 PVC pipe.
- ii. All storm drainage catch basins shall be Inlet Catch Basin Type 11 (SD-602) in accordance with current edition of the ISPWC with a 12 inch sump.
- iii. Trench shall include nonmetallic tape identifying the storm sewer pipe.
- iv. Minimum size of storm drain shall be 8-inches.

B. Construction and Testing: Storm sewer system shall be constructed and tested in accordance with ISPWC. Compaction testing is required in all trenches within the right of way. See Section 6.N. for details.

C. Manhole spacing shall be no more than 400 feet.

D. The storm drain system shall be designed such that it will convey a storm with an intensity of 1 inch per hour. The retention system shall hold a volume equivalent to 1 inch of rainfall over the entire drainage area.

- E. Retention shall infiltrate within 24 hours.
- F. Infiltration rate shall be determined by soil type per chart. Percolation tests may also be used but design rates may not exceed value in table.

TABLE 3 – INFILTRATION RATES	
SCS Group and Type	Infiltration Rate (Inches Per Hour)
A. Sand	8
A. Loamy Sand	2
B. Sandy Loam	1
B. Loam	.5
C. Silt Loam	.25*
C. Sandy Clay Loam	.15
D. Clay Loam & Silty Clay Loam	<.09
D. Clays	<.05
*Minimum rate, soils with lesser rates should not be considered as candidates for infiltration facilities.	

3. Site Conditions Evaluation:

A. Site suitability is a major factor in choosing Best Management Practices (BMPs). In some cases, a BMP may be eliminated as an option because of site constraints. Since drainage disposal may place limitations on the use or specific location of future improvements, site evaluation should be completed before preparing any development concepts or plans.

4. Plan Submittal Requirement:

A. A Storm Drainage Plan is required for all new subdivisions and commercial or industrial facilities. The Plan must be stamped and signed by a licensed professional engineer, architect, or landscape architect. Review of the Plan may be delayed if the submittal is incomplete. Landscaping shall be included in the Plan, if applicable. Operation and Maintenance shall be included in the Plan.

- B. At a minimum, the O&M Plan shall identify the following:
- i. The storm water system owner(s),
  - ii. The entity, party, or parties, responsible for long-term operation and maintenance.
  - iii. A copy of final system design drawings along with design calculations (calculations beyond those submitted during plan review).
  - iv. A schedule for inspection and maintenance including the routine and non-routine maintenance tasks to be conducted.
  - v. A financing plan.

5. Drainage Easements:

- A. All storm water control facilities and natural drainage channels, not part of a new development, shall be located in designated and reserved storm water easements that are a minimum of 20-feet wide. Easements shall be sized for access for construction equipment and activities that may be needed for maintenance and repair work. If maintenance roads are necessary, they must be a minimum of 12-feet wide, have an HS-20 load capacity, and have a minimum inside turning radius of 30-feet.
- B. In new developments, all storm water control facilities and natural drainage channels shall be located in separate lots or Right of Way. All separate storm water associated lots shall be dedicated to the Home Owner's Association or a sole responsible party. The Home Owner's Association or sole responsible party will be responsible for all storm water facility operation and maintenance within the subdivision.

**CHAPTER 5 PRESSURIZED IRRIGATION:**

1. General:

- A. Irrigation and Drainage Districts (PMC 16.28.050-060)
- i. All irrigation systems are private (not City owned)
  - ii. No ditch, pipe or structure for irrigation water or wastewater shall be changed unless such change has been first approved by the owner.
  - iii. Improvements to surface drainage courses may be required. Drainage easements may be required.

B. Pressure Irrigation (PMC 16.28.040.B)

- i. Pressure irrigation is required for all new developments. Irrigation water is to be provided from either private wells or surface water. Proof of water right is required. Water from the City's potable system is not permitted for the irrigation system.
- ii. The pressure irrigation system shall deliver a minimum of ¾-inch hose connection at 25 psi per lot.

**CHAPTER 6 STREETS:**

1. General:

All materials, construction, testing, and inspection shall be in accordance to the current edition of the ISPWC Divisions 200, 700, 800 and all other applicable divisions therein.

A. Right-of-way widths (PMC 16.12.040.D)

- i. Local ..... 60 feet
- ii. Collector..... 70-90 feet\*
- iii. Arterial..... 100 feet
- iv. Alley..... 20 feet
- v. Cul-de-sacs, radius..... 50 feet

\*Streets that border section lines require minimum 80-foot r/w and along quarter-section lines require minimum 70-foot r/w (PMC 12.04.270).

B. Curves (PMC 16.12.040.K)

- i. For 10° or more deflection, a connecting curve is required:
  - a) 150' radius for local streets
  - b) 300' radius for arterial and collector streets

ii. A vertical curve is required for changes of slope greater than 1%. Vertical curves shall have a minimum K-value of 50 for 35 mph design speed and minimum K-value of 30 for design speed = 25 mph. Design Speeds shall be per 6.1.P.

- C. Minimum angle of intersection: 70° (PMC 16.12.040.J)
- D. Minimum radii of curbs (PMC 16.12.040)
  - i. Cul-de-sacs – 45'
  - ii. Local Street/Local Street – 20'      PMC 16.12.030
  - iii. Local Street/Collector – 20'      PMC 16.12.030
  - iv. Collector/Arterial – 30'      ISPWC
  - v. Commercial zones – 30'      ISPWC
- E. Grades (PMC 16.12.040)
  - i. Minimum – 0.003 ft/ft (0.3%)
  - ii. Maximum – 0.15 ft/ft (15%)
- F. Typical sections (PMC 17.08.590)
  - i. Back-to-back curb dimensions
    - a) Local      37 feet
    - b) Residential Collector      41 feet
    - c) Collector      47 feet
    - d) Arterial      47 feet
- G. Sidewalks – (PMCs 12.04.170, 120.4.250, & 16.28.030.G)
  - i. concrete only
  - ii. minimum 4-feet in residential areas on local streets
  - iii. minimum 5-feet wide in residential areas along arterials
  - iv. minimum 5-feet in commercial areas
- H. Curb and gutter types (PMC 12.04.250)
  - i. Standard is 6" vertical curb with gutter
  - ii. 6" vertical curb and gutter required on collectors and arterials
  - iii. 6" vertical curb and gutter required in commercial/industrial zones

- iv. 3" rolled curb allowed on local streets in new subdivisions or when adjoining existing rolled curb.

I. Minimum Pavement Thickness (compacted materials) (TMP)

	a) Local	b) Collector
Plant mix	2.5"	3"
Base Course	3"	6"
Sub base	10"	12"

Where: Plant mix is Class III asphalt concrete per ISPWC 810

Base Course is ¾-inch crushed aggregate for base per ISPWC 802

Sub base is 3-inch minus uncrushed aggregate per ISPWC 801

J. Street Lengths (PMC 16.12.040.I)

- i. Maximum loop street length is 1,000 feet unless the street serves 24 or fewer lots, then the maximum length is 1,200 feet.
- ii. Maximum culdesac length is 400 feet from entrance to center of final turn around.
- iii. Temporary turnarounds will be required for any street stub longer than 150 feet. Temporary turnarounds will have a minimum 45-foot radius.

K. Emergency Access Roads (2003 International Fire code, IFC, pg 397)

- i. Typically, a 26' wide emergency access road is required for secondary access. See 2006 IFC for details.
- ii. Easement shall be provided for access road.

L. Street Lights (PMC 16.12.080)

- i. Located at each intersection and as required by City
- ii. Cobra Heads, metal poles
  - a) 100 watt high pressure sodium.
  - b) 25' mounting height.
  - c) 6' mast arm

M. Blocks (PMC 16.12.020)

- i. Length no longer than 660-feet
- ii. Length not less than 250-feet

N. Trenching within Right of Way

All trenches shall conform to ISPWC Section 300. See attached standard drawing SD-301 for additional information. The notes below correspond to the items on SD-301:

**Note**

1. Local cutback = 1 foot
6. Imported backfill shall be used for trenches unless approved in advance by the City Engineer. Backfill shall conform to Section 801-Uncrushed Aggregate. Approval of alternate material will be based on gradation and moisture content of proposed alternate.
8. Type I or III bedding typically required.
11. Match existing finished pavement thickness or use minimum of 2.5 inches on local streets and 3.0 inches on collectors or arterials, whichever is greater. Pavement thicknesses shall not exceed 4 inches on local streets or 6 inches on collectors or arterials. Use 8 inches of ¾-inch crushed aggregate base unless otherwise specified.
12. Upper compaction zone: Compact to at least 95% of maximum dry density (MDD) as per ASTM D 698.
13. Lower compaction zone: Compact to at least 92% of MDD as per ASTM D 698.

*NOTE: Compaction tests are required as follows: at least 1 test per 300 lineal feet of trench (2 minimum) horizontally, and at least 1 set of tests per each 2 feet vertically of trench backfill.*

O. New Street Construction: all underground utilities (including storm drain) within the right-of-way shall be installed prior to placing any sub base or base material.

P. Design Speed (PMC 10.16)

- |                                |        |
|--------------------------------|--------|
| i. Local and Collector streets | 25 mph |
| ii. Arterial streets           | 35 mph |

Q. Restricted access points (no driveways) along collectors and arterials (PMC 16.12.010.C)

- R. Residential driveway curb cuts must be separated by at least 21 feet (unless on adjoining driveways) and are limited to (PMC 12.04.250.D):
  - i. 20 feet wide on 50-foot lots
  - ii. 35% of lot width up to a maximum of 35 feet on wider lots
  - iii. Driveways on corner lots shall be placed within 8 feet of the property line which is away from the intersection, or at least 75 feet from the end of the corner curb radius, whichever is less.
- S. Open Space
  - i. Landscape buffer separates areas (PMC 17.08.130).
- T. Buffer strip required along arterial and collector streets. Minimum 15-foot wide including sidewalk (PMC 16.12.010.F).
- U. Street signs are to be determined by Street Supervisor or designated employee.

2. Miscellaneous:

- A. Street Cuts or Blockages: The City's Streets Supervisor shall be notified in writing at least two (2) City business days before any street cuts or street blockages for utility or street work.
- B. Vandalized Concrete: Any concrete vandalized during construction shall be repaired to new condition or replaced solely at the contractor's expense.
- C. Dust shall be controlled by watering in the morning and evenings and as otherwise needed. Contact the City for options on purchasing water.
- D. Stop signs are required at all intersections. Stop sign location to be determined by City Engineer or designated employee.

**CHAPTER 7 RESIDENTIAL DEVELOPMENT**  
**(PMC 16.12.030, 17.24.00, 17.28.00)**

1. General

- A. Flag lots are not permissible without a variance from the City Council (PMC 16.12.030.C)
- B. Easements: Public Utility, Drainage, and Irrigation (P.U.D.I) (PMC 16.12.060)
  - i. Front yard                      10-feet
  - ii. Side yard                        6-feet

- iii. Rear yard 10-feet
- C. Irrigation is required. See Chapter 5.
- D. Model homes are allowed (PMC 16.13.00)
- E. Landscape buffer strips (PMC 16.12.010.F)
  - i. Required where development adjoins collectors and arterials
  - ii. Minimum width is 15-feet measured from back of curb (includes sidewalk)
  - iii. Privacy fence or berm with landscaping required
- F. Storm Drainage must be contained on-site and meet the State of Idaho's BMPs (PMC 16.28.050). See Chapter 4.

2. "A" Residential

- A. Min sq. footage (PMC 17.24.040.G)
  - i. Standard lots – 8,000 SF
  - ii. Corner lots – 10,000 SF
- B. Minimum frontage on right-of-way (PMC 17.24.040.D)
  - i. Standard lots – 75-feet
  - ii. Corner lots – 85-feet
- C. Minimum radius for corner lots-20-feet (PMC 16.12.030.B)
- D. Minimum setbacks (PMC 17.24.040. A-C)
  - i. FRONT- The larger of either, 25-feet from property line or 55-feet from center of road
  - ii. SIDE/REAR-8-feet

3. "B" Residential

- A. Min sq. footage (PMC 17.28.040)
  - i. Standard lots - 6,000 SF
  - ii. Corner lots – 8,000 SF
- B. Minimum frontage on right-of-way (PMC 16.12.030)
  - i. Standard lots – 60 feet

- ii. Corner lots – 75 feet
- C. Minimum radius for corner lots - Same as “A”
- D. Minimum setbacks- Same as “A”
- E. Multi-family housing and Townhouses are allowed. Minimum lot size is 3,500 SF per living unit (PMC 17.28.404, 17.64.230)
- F. Planned Unit Developments (PUD) are allowed (PMC 17.44)

## **CHAPTER 8 COMMERCIAL DEVELOPMENT** **(PMC 17.32-17.36)**

Commercial developments are highly variable, and each developer is encouraged to attend a pre-application development review meeting with City representatives. This will often stream-line the development process and often save the developer time and money.

- A. Permissible uses are defined in PMC 17.32.010 and 17.32.020.
- B. The parking requirements are clearly identified in PMC 17.72.020 through 17.72.040. Please note that paved, striped, lighted, and landscaped parking areas are required.
- C. Drainage: All surface water retained on site PMC 17.72.020.
- D. Standard 6” vertical curb with gutter and sidewalks shall be constructed in front and along the side streets of said property. Sidewalks shall be five feet (5') minimum width, and wider if necessary to conform with sidewalks already in existence, or from curb to property line. PMC 12.04.250
- E. Requests for curb cuts must be made, in writing, to the Council. Curb cuts up to twenty feet (20') may be allowed on fifty foot (50') lots, and up to thirty five percent (35%) on lots above fifty feet (50'). No curb cut may be longer than thirty five feet (35'), and twenty one feet (21') of curb must be left between any two (2) curb cuts except where there are adjoining driveways. A request for any deviation in these regulations must be referred to the Planning Commission for approval before the Council will consider such request. Every application for a building permit shall show where the curb cut will be and must have the approval of the Engineer or Building Official. (PMC 12.04.250)
- F. Pressure irrigation for landscape areas as required to support landscaping.
- G. Surface water retained on site (PMC 17.72.020). See Chapter 5.
- H. Curb cuts will be a minimum of 75 feet from the corner radius of the nearest intersection. Longer distances may be required to prevent interference with turn lanes and/or other intersection functions.

## **CHAPTER 9 PROJECT INSPECTION/CONSTRUCTION:**

### **1. General:**

- A. Prior to any work within the City right-of-way, an application and encroachment permit shall be obtained from the City of Payette. Application is included at the end of this Chapter.
- B. Prior to commencement of construction a pre-construction meeting shall be held.
- C. Prior to commencement of construction of the associated public portion of improvements the material submittals shall be submitted and approved. A checklist of submittal requirements is included at the end of this Chapter.

### **2. On-Site Inspector(s):**

- A. Project inspection shall be conducted on a daily basis under the auspices and control of the developer's Idaho-licensed professional Engineer.
- B. Prior to any new construction, or repair of existing utility service, the City shall be notified in writing of the inspector's name, a statement of qualifications, office location, phone number, and emergency telephone numbers.
- C. No water, sewer, street, or drainage construction shall take place without the City approved inspector on-site.
- D. Periodic inspection shall be conducted by the Department Supervisors and/or the City Engineer.

### **3. Final Inspection:**

- A. Final project inspection shall be by the City Engineer or a representative of the City Engineer.
- B. Final inspections shall be requested by the developer's engineer and scheduled with the City Engineer at least two (2) City working days in advance.

C. Punch List:

- i. The project engineer shall do the first walk through and compile a list of items to be completed. Prior to the City and City Engineer participating in a walk through all items on the list are substantially completed.
- ii. The City Engineer will develop a "punch-list" of items that must be completed, within five (5) working days of the final inspection.
- iii. At the time the "punch-list" is developed, the City Engineer will assess a value to the punch list items, which the developer may secure an item of surety in accordance with City Code so that the developer may proceed with the development plan.
- iv. Punch list items shall be completed to the satisfaction of the City Engineer prior to the release of any portion of the security. When all items contained on the City's punch list are completed, the City will issue a certificate of completion at which time the warranty period will start.

## **CHAPTER 10 LANDSCAPE AND VIEWSCAPES:**

### **1. General:**

- A. All residential, commercial, and light industrial developments shall have entrance landscaping for a traffic buffer and viewscape transition. As a minimum, the traffic buffering requirements shall be according to City of Payette Landscaping Ordinance.
- B. Maintenance of such landscaped and/or viewscape areas including but not limited to the irrigation system shall be the responsibility of the developer, future owner, and/or homeowner association unless other maintenance arrangements have been agreed upon with the City.
- C. All residential, commercial, and light industrial developments requiring or offering open space shall have as a minimum submitted with the final plan set:
  - i. A landscape plan;
  - ii. A financial plan of implementation, if dedicated to the City.

### **2. Required Irrigation:**

- A. General: Irrigation shall be supplied as a part of the landscape and/or viewscape with the ability to be controlled automatically.
- B. Pressurized Irrigation: Shall comply to Chapter 5 of these specifications.
- C. Gravity Irrigation: All materials, construction, testing and inspection shall be in accordance to the current edition of the ISPWC Divisions 600 and all other applicable divisions therein.

Contact Name Connie Jones

Contact E-mail cljones@payetteschools.org

Contact Cell Number (208) 405-9827 Work/Home Number won't be @ school during summer

### Event Information

Event Name ~~Back to school~~ Pool Bash

Event Date and Time July 25 or 26 or August 1 or 2 (8:15pm-10:15pm)

Projected Attendance 75-100 Cost per Person (if applicable) \$5.00

Item To Be Used For (Door Prize, Silent Auction, Live Auction, Etc.) none

Are you requesting a pool pass Y/N If not, list your request wave the pool rental for 2 hours, and any additional

(Please Check One) Day Pass \_\_\_\_\_ Month Pass \_\_\_\_\_ Three Month Pass life general fees.

Event Description Pool party fundraiser to help students go to Washington DC / New York, educational trip. Movie or music, pool

Back By the 11th meeting is the 16th - 7pm

# CITY OF PAYETTE, IDAHO

## AGENDA STATEMENT

**To:** Payette City Council  
**From:** Bobbie Black, Deputy City Clerk  
**Date:** 6/13/2014  
**Re:** Historical & Airport Commission

A handwritten signature in blue ink, appearing to be "BB", is written over the "From:" line.

---

**BACKGROUND & JUSTIFICATION:** Marcia Gray & Patty Theurer's appointments on the Historical Commission expire 7-31-14 and Brenda Carter and Dave Koeppen's (alternate) appointments on the Airport Commission expire 6-30-14.

**FISCAL IMPACT:** None

**RECOMMENDATION:** Recommend that City Council approves the re-appointment from the Mayor of Marcia Gray & Patty Theurer on the Historical Commission to expire 7-31-17 and Brenda Carter & Dave Koeppen on the Airport Commission to expire 6-30-17.

**MINUTES OF A REGULAR SCHEDULED CITY OF PAYETTE AIRPORT COMMISSION MEETING HELD JUNE 9 2014, AT 4:15 P.M. IN THE AIRPORT MEETING ROOM, PAYETTE, IDAHO.**

**THE MEETING WAS CALLED TO ORDER BY COMMISSIONER PETERSON at 4:15 PM.**

**MEMBERS PRESENT:** Frazer Peterson, Bert Osborn, Dave Koeppen, Brenda Carter, Gary Cox and Jan Zatloukal arriving at 4:40.

**ABSENT:** None

Also in attendance were Mary Cordova, Ray Wickersham, and Bobbie Black.

Also in audience were Marty Gergen and Jan Zumwalt

**APPROVAL OF MINUTES:**

Carter made a motion to approve the minutes of May 12, 2014 as written. The motion was seconded by Cox and passed by unanimous voice vote.

**COMMUNICATIONS:** None

**OLD BUSINESS:**

1. Fuel at Airport: The Commission was given updated reports on fuel for May.
2. 2014-15 Budget: The Commission reviewed the expenditures and revenues for next budget year and made recommendation.
3. Minimum Standard Review Update: The Commission was provided with the new minimum standards City Council approved.

**NEW BUSINESS:**

1. Budget information: The Commission was provided with the expenditure and revenue reports through May.
2. Gene Wilkie – storage container land lease price: This is before the Commission because a price for Mr. Wilkie's temporary storage containers was never decided. Commissioner Osborn made a motion to recommend to City Council to charge Mr. Wilkie \$250.00 per container. The motion was seconded by Commissioner Koeppen and passed by unanimous voice approval.
3. Update on Idaho Airport AID Program: The Commission was given the update on Senate Bill #1265 effective July 1<sup>st</sup>, 2014. The City and County has already adopted an ordinance. This new bill addresses the City having to change our comprehensive plan and ordinances that effect conditional use permits and variances or TDR's. We now have to consider aviation zoning with these applications.

**GENERAL DISCUSSION:**

Commissioner Cox stated that since the fire break has been placed along the airport property, it has now turned into a dirt bike and ATV race track. He is asking that the City place signs that state "No Trespassing".

EAA stated that during Apple Blossom they provided free airplane rides. There were around 87 people that took advantage of it and Mr. Koeppen donated over half of them at his expense. They also offered to host the skydivers that day from 9 am to 9 pm for hangar use and it was only utilized from 10 am to 12 pm. EAA kept their doors open for both days.

Ms. Cordova stated that we received our 1<sup>st</sup> complaint of too many planes in the sky that day.

**CITIZENS COMMENTS:**

Marty Gergen from Riedesel Engineers stated that they are interested in helping out where ever they need to. He was informed to contact Bill Statham regarding the runway extension project. Mr. Koeppen stated that he has mowed the weeds and he only has one complaint regarding the birds nesting.

**NEXT AGENDA:** Next meeting will be held July 14, 2014, at 4:15 P.M.

Commissioner Osborn made a motion to adjourn the meeting at 5:15P.M. The motion was seconded by Commissioner Cox and passed by unanimous voice approval.

Recording Secretary, Bobbie Black
