12.06.040: STANDARDS FOR ISSUANCE OF SPECIAL EVENTS PERMIT:  

A. A special events permit shall be issued only to applicants when the following findings can be made:

1. The conduct of the special event will not substantially interrupt the safe and orderly movement of traffic contiguous to its venue;
2. The conduct of the special event will not require the diversion of so great a number of police officers to properly police the venue and the area contiguous thereto as to prevent normal police protection to the city;
3. The conduct of the special event will not require the diversion of so great a number of ambulances as to prevent normal ambulance service to portions of the city other than that to be occupied by the proposed special event and the area contiguous thereto;
4. The concentration of persons and vehicles at assembly points of the special event will not unduly interfere with proper fire and police protection of, or ambulance service to, areas contiguous to such assembly areas;
5. The conduct of the special event will not interfere with the movement of firefighting equipment en route to a fire;
6. The conduct of the special event is not reasonably likely to cause injury to persons or property, or to provoke disorderly conduct or create a disturbance; and
7. The event is in the best interest of the public.

B. A special events permit shall be issued only to applicants who meet the following conditions:

1. The event shall not be of duration longer than four (4) days, and the organizer shall have applied for no more than eight (8) events in a calendar year. Any application for exception to these time limitations shall be submitted to the city council. The city council shall consider materials provided by the applicant demonstrating that a significant public interest exists to warrant the extension of time. The city council shall make findings pertaining to the extension of time and to the findings set forth in this section.
2. The city clerk shall, in his/her discretion, find that adequate steps are provided for protection of public property, including proof of the applicant having obtained general liability insurance coverage in the minimum amount of one million dollars (\$1,000,000.00) covering the city as an additional insured, and compliance with administratively adopted requirements for providing additional trash receptacles and/or dumpster, portable toilets, and security measures, which requirement shall depend upon the nature and size of the event.
3. The applicant has agreed to indemnify, defend and hold harmless the city and its officers and employees from any and all demands, claims or liability of any nature, caused by or arising out of, or connected with the special event.
4. The applicant has paid fees as set by resolution of the city council for special events, including per diem fees and security deposits.
5. The applicant has made no false statements or misrepresentations upon any present or former application for special events permit.
6. The applicant has not violated any provisions of city, state, or federal laws, including the provisions of this chapter, in conducting any previous special event.
7. The special event is not for an unlawful purpose.
8. The special event permit is subject to other applicable city, state, federal or other governmental rules, regulations or laws. (Ord. 1284 § 2, 2007)

12.06.050: RIGHT OF APPEAL:

An appeal from any decision of any city official or employee made in the administration or enforcement of this chapter may be made to the city council by filing a written appeal and fee with the city clerk within fifteen (15) days following the date of the action or decision giving rise to the appeal. Upon hearing the appeal, the city council shall consider the record, the decision of the city officer, and the written appeal together with oral presentation by the appellant, the city officer or administrator, and the applicant. The city council may affirm, reverse, or modify the decision of the city clerk. The city council shall not substitute its judgment for that of the city clerk as to the weight of the evidence on questions of fact. The council shall affirm the city clerk's decision unless the city council finds the decision is: a) clearly erroneous; b) arbitrary, capricious or an abuse of discretion; or c) not supported by substantial evidence in the record as a whole. The city clerk shall transmit a copy of the city council's decision and findings to the appellant, the applicant and any other who has requested a copy in writing. The fee for processing the appeal shall be set by resolution of the city council. (Ord. 1284 § 2, 2007)

12.06.060: ENFORCEMENT:

- A. Criminal Liability: Any violation of this chapter shall be a misdemeanor punishable by fine and/or imprisonment up to but not exceeding the maximum penalties set forth in Idaho Code section 50-302, as amended. Each day a violation continues shall be considered a separate offense, punishable as described in this section.
- B. Civil Liability: Appropriate actions and proceedings may be taken at law or in equity to prevent any violation of the provisions stated in this chapter, to prevent any violation of these regulations, to recover damages, to restrain, correct or abate a violation of this section and to prevent illegal occupancy of public property. These remedies shall be in addition to the penalties described above. (Ord. 1284 § 2, 2007)

PROJECT DESCRIPTION CONTINUED

We are applying for the Facade Grant as a collaboration between the owners of Payette City buildings listed in the National Register of Historic Places. This is in accordance with the City of Payette Downtown Building Façade Grant Program.

The National Register of Historic Places is the official list of America's historic properties that are significant to the history of their community, state, or the nation and are classified as worthy of preservation. A professional review board in each state considers each property proposed for listing and makes a recommendation on its eligibility. Once accepted, National Historic Buildings placed in the list are often distinguished by a "standard" bronze plaque to commemorate the listing.

How are the proposed Facade Improvements consistent with and furthers the purpose of the City Codes, the Design Guidelines, and the Downtown Master Plan?

Commemorating National Historic Properties in Payette is the perfect project to further the purpose of the City Codes, Design Guidelines and Downtown Master Plan. It meets all requirements and has the greatest cost-benefit ratio with the the City of Payette contributing less than \$200.00 per plaque.

It has long been recognized that historic downtown is Payette's greatest asset with strong economic growth potential. According to the official Payette City Center Plan of 1985, "historic buildings constitute the largest physical resource for the community and are the key to the revitalization of the downtown. The quality of construction and design of Payette's historic buildings, coupled with their attractive human scale, offer an excellent opportunity for commercial success."

The Comprehensive Plan for the City of Payette also highlights Payette's historic properties and actually encourages signage. It points out that Payette is "fortunate to have a historic downtown and the potential opportunities provided by this architectural heritage." In 2007 the visiting team of experts recommended "creating interpretive signs that celebrate Payette's history. The signs should be of a consistent design and could educate visitors and residents about sites of historically significant events." They also recommended that a "self led historic walking tour be created for both visitors and residents." A walking tour highlighting the buildings on the National Register and the highly visible plaques we are requesting would achieve these goals.

National Register plaques also fall under the preferred Facade Grant guidelines since the majority are located within the Downtown Commercial Zone and all are listed in the National Register of Historic Places as identified by Payette's historic survey.

National Register Plaques are supported by the Idaho Heritage Trust, the Idaho State Historic Preservation Office (SHPO) and the National Trust for Historic Preservation. I spoke with Tricia Canaday from SHPO about recognizing Payette's National Register Buildings with these plaques. She emphasized that "the SHPO supports your efforts to recognize your NRHP - listed properties in Payette - I think it's a great idea!" Ms. Canaday even offered to present a workshop, at the Portia Club, on how to research historic properties and apply for National Register status.

How will the project contribute to the revitalization of the Downtown Commercial Zone?

Helping each business owner purchase a National Register Plaque for their historic building is the most cost effective and direct way to contribute to the Downtown Commercial Zone. For a small contribution per plaque, the City of Payette will obtain highly visible signage that contributes to the enhancement of Downtown.

This low cost investment highlights Payette's unique historic character and makes Downtown more attractive to both tourists and local consumers. It would also encourage people to stroll down Main Street, checking each plaque, visiting businesses, buying goods and enjoying our local history.

We believe this program will further investment in our area by encouraging current building owners to better maintain their historic structures and incentivize other businesses to move into the area to take advantage of the historic potential of Downtown Payette. According to the National Park Service Website (www.nps.gov/nr), listing your property on the National Register, "places no obligations on private property owners. There are no restrictions on the use, treatment, transfer, or disposition of private property." Furthermore, "a property owner can do whatever they want with their property as long as there are no Federal monies attached to the property." They also state that "owners of properties listed in the National Register may be eligible for a 20% investment tax credit for the certified rehabilitation of income-producing certified historic structures such as commercial, industrial, or rental residential buildings." We hope viewing these plaques and recognizing the benefits of owning and restoring a historic property could encourage further investment in our local economy and help revitalize our Downtown Commercial Zone.

How many jobs and estimated salaries will be created by this renovation?

This program will not directly create more jobs, but has the potential to bring more business into the area and help stimulate the local economy. Displaying National Register Plaques would draw attention to the historic framework of downtown Payette and has the potential to bring tourists into the area, spark other restoration projects and encourage business owners to better maintain their historic buildings. This simple, cost-effective program can help foster more investment in Payette's Downtown Commercial Zone and bring a feeling of pride back to the community.

* We hope that if this inspires other owners of historic buildings in Payette to list their property in the National Register, they will be able to purchase their plaques under this application.
